Important information

What are my options for paying my bill?

On-line	Pay one-time or recurring on www.sce.com/bill
Mail-in	Check or Money order
In Person	Authorized payment locations 1-800-747-8908
Phone	QuickCheck 1-800-950-2356 Debit & credit card 1-833-425-1440
Other	PayPal, Venmo, Apple Pay and Google Pay

Electronic check processing

Your check payment will be processed as a one-time Electronic Fund Transfer (EFT). With EFTs, funds may be withdrawn from your account the day we receive your payment. Your check will not be returned, but will appear on your financial statement.

Rates and applicable rules: Available at www.sce.com or upon request.

Past due bills

When is my bill past due? It is past due 20 days after the preparation date, which was 05/19/25.

- Reconnecting service that has been disconnected requires a Service Connection payment (non-residential only).
- Unable to pay: If payment arrangements were not extended to you by SCE pursuant to SCE's filed tariffs, you may contact the California Public Utilities Commission.
- For safety reasons, if service is disconnected, please ensure any sensitive or potentially hazardous equipment is unplugged on the day of reconnection. For additional home safety tips, visit www.sce.com/safety or call SCE at 1-800-655-4555.

What is the Late Payment Charge (LPC)?

0.6% will be applied to the total unpaid balance if payment is not received by the due date on this bill (except for CARE and state agency accounts).

What is a rotating outage?

Rotating outages are controlled electrical outages used to avoid widespread or uncontrolled blackouts. Your Rotating Outage Group number is located on page 1, upper left, of your SCE bill. Your rotating outage group number may change at any time. For more information, visit www.sce.com/rotating outage.

What is the Power Charge Indifference Adjustment (PCIA)?

The PCIA is a charge to ensure that both SCE customers and those who have left SCE service to purchase electricity from other providers pay for the above market costs for electric generation resources that were procured by SCE on their behalf. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources.

Disputed bills

If you believe there is an error on your bill or have a question about your service, please call Southern California Edison (SCE) customer support at 1-800-655-4555. If you are not satisfied with SCE's response, submit a complaint to the California Public Utilities Commission (CPUC) at www.cpuc.ca.gov/complaints/. The CPUC's Consumer Affairs Branch (CAB) handles billing and service complaints and can be reached by:

Telephone 1-800-649-7570 (8:30 AM - 4:30 PM, Monday - Friday)
Mail CPUC, Consumer Affairs Branch, 505 Van Ness Ave., Room 2003, San Francisco, CA 94102

If you have limitations hearing or speaking, contact the California Relay Service, which is for those needing assistance relaying telephone conversations. Dial 711 or one of the numbers below to be routed to a California Relay Service provider in your preferred mode of communication.

Type of Call	English	Spanish
TTY/VCO/HCO to Voice	1-800-735-2929	1-800-855-3000
Voice to TTY/VCO/HCO	1-800-735-2922	1-800-855-3000
Speech-to-Speech Relay	1-800-854-7784	1-800-854-7784

To avoid having service turned off while waiting for the outcome of a complaint to the CPUC regarding the accuracy of your bill, contact CAB for assistance. If your case meets the eligibility criteria, CAB will instruct you on how to mail a check or money order to be impounded pending resolution of your case. You must continue to pay your current charges while your complaint is reviewed to keep your service turned on.

Definitions

- Baseline Credit:** The baseline credit provides reduced electricity rates on electricity used up to the baseline allocation for the region that you live in.
- CA Climate Credit:** Credit from state effort to fight climate change. Applied monthly to eligible businesses and semi-annually to residents.
- Wildfire Fund Charge:** Supports the California Wildfire Fund which covers costs associated with catastrophic wildfires, including payment of bonds issued by the California Department of Water Resources (DWR)
- Public Purpose Programs Charge:** Funds state-mandated programs for low income discounts, energy efficiency, renewable energy and R&D.
- SCE Generation:** For recovering energy procurement and generation costs for that portion of your energy provided by SCE.

To change your contact information or enroll in SCE's payment option, complete the form below and return it in the enclosed envelope.

Usage kWh			\$ Avg. cost		\$ Total cost

Your overall energy charges include:

- \$246.61 franchise fees

Additional information:

- Service voltage: 480 volts

Rate Identification Number - RIN

USCA-SCSC-2400-0000

In the future, you might use the Rate Identification Number (RIN) to program smart devices like smart thermostats, EV chargers, or energy management systems once the manufacturer has enabled its use. Once these smart device features are available, simply scan the QR code using the smart device app for setup. To learn more, visit sce.com/helpcenter/rin.

Things you should know

Fixed Recovery Charge

SCE has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires. Your bill for electric service includes a Fixed Recovery Charge that has been approved by the CPUC to repay those bonds. The right to recover the Fixed Recovery Charge has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and does not belong to SCE. SCE is collecting the Fixed Recovery Charge on behalf of the Special Purpose Entity.

Micro-business Certification

Pursuant to CPUC D.10-10-032 and D.10-11-037, customers who meet the definition of a "micro-business" as defined by California Government Code Section 14837, may be rebilled for a maximum of three months rather than three years for an undercharge resulting from a billing or meter error. To learn more and what you can do to self-certify as a "micro-business" please call 1-800-990-7788 or visit us at sce.com.

Stay Safe Around Electricity: Metallic Balloon Safety

- **Keep metallic balloons indoors.** They should always be tied to a weight.
- **Never release them outside.** They can cause electrical fires and outages if they touch wires.
- **Never remove the weight.** Puncture balloons before disposing of them.
- **Do not attempt to retrieve objects tangled in wires. Stay at least 100 feet away and call 911.**

Visit us at www.sce.com/staysafe for more safety tips. **Stay aware. Stay safe.**

Be Aware of Potential Payment Scams

- All SCE customers are advised to stay vigilant of potential payment scams.
- SCE does not have a disconnection department and an SCE agent will never demand payment over the phone.
- SCE does not accept payments through money apps (like Zelle or Cash App), prepaid cash cards (like MoneyPak) or cryptocurrency (like Bitcoin).

To learn more go to www.sce.com/scamalert

Be Prepared for Outage Emergencies

If your home or business is located in an area designated as a Tier 2 or Tier 3 high fire risk zone, you may want to consider adding a power station or a portable generator to your emergency preparedness plans. These devices may provide backup power for your personal electronics such as a cell phone, computer, or other important household appliances such as refrigerators, lighting, garage door opener and medical devices which helps you to be more prepared for an outage or other emergency. Rebates are available for the purchase of qualifying products.

Watch our backup power educational videos, learn more about available solutions and apply for rebates in the SCE Marketplace at

www.sce.com/rebates.

To learn more about the process and method the California Public Utilities Commission used to determine High Fire Threat District maps, visit:

www.cpuc.ca.gov/industries-and-topics/wildfires/fire-threat-maps-and-fire-safety-rulemaking

Support for Customers Affected by a Major Disaster

If you or someone you know has been affected by a disaster for which a state of emergency has been declared, please visit www.sce.com/disastersupport for information about consumer protections, programs and services SCE has available.

May 2025

Proposition 65 Warnings

⚠ WARNING: The Safe Drinking Water and Toxic Enforcement Act of 1986, commonly referred to as Proposition 65, requires the governor to publish a list of chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. It also requires California businesses to warn the public of potential exposures to these chemicals that result from their operations.

Providing safe and reliable service to all of our customers is a top priority for Southern California Edison and we want you to be aware of these chemicals so that you can reduce exposure to chemicals associated with electricity generation and distribution. We handle all equipment and materials at our sites carefully for your good health as well as ours. However, if you are at or near our facilities and work sites, you can be exposed to the following chemicals on the state's Proposition 65 list. Reduce, limit, or avoid activities at and near the sources of exposure described below. For more information go to:

www.P65Warnings.ca.gov

1. Diesel Generation: Diesel Exhaust: SCE uses diesel-fueled emergency generators during emergencies and other times to help minimize the interruption of our customers' supply of electricity. The generators are used at some SCE facilities like substations and service centers, and at locations where repairs are made to the electrical system. SCE also uses diesel as the primary fuel for electricity generation on Catalina Island and in many service vehicles used throughout our service territory. Diesel engines produce exhaust as a by-product of the combustion of diesel fuel. Breathing diesel engine exhaust exposes you to chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. You should avoid breathing diesel fumes whenever possible.

2. Wooden Utility Poles: SCE uses wooden poles that have been treated with chemical preservatives. These chemicals include pentachlorophenol, which is known to the State of California to cause cancer, and petroleum products such as diesel fuel, which contains chemicals including toluene and benzene that are known to the State of California to cause cancer and birth defects or other reproductive harm. If you come into contact with a wooden utility pole or the dust, debris, soil surrounding the pole, or water runoff that may contain dust, debris, and soil previously in contact with the pole, you could be exposed to these chemicals. Avoid contact with wooden utility poles and the dust, debris, soil surrounding the poles, or water runoff that may contain dust, debris, soil surrounding the poles, or water runoff that may contain dust, debris, and soil previously in contact with the poles.

3. Painted Structures: SCE utilizes metal and wood structures and equipment that may have been coated with paints containing chemicals, such as lead-based paint, that are known to the State of California to cause cancer and birth defects or other reproductive harm. When the paint on these structures deteriorates, flakes of paint can impact the soil adjacent to the structure. To avoid exposure, you should avoid contact with any paint flakes or soil near any structure with deteriorating paint.

Health and Safety Tips for Temperature Sensitive Customers

Extreme hot weather may be harmful to people who have health issues or those who are sensitive to high temperatures. Here are steps you can take to avoid heat-related illness this summer if you don't have access to air conditioning at home to help you stay cool in hot weather:

- **Drink plenty of water to stay hydrated.**
- **Stay out of direct sunlight and limit outdoor activity to covered or shaded areas.**
- **Wear lightweight, loose, light-colored clothing and a head covering.**
- **Take a cool shower or bath.**

What to Do During Rotating Outages?

We strongly encourage you to be prepared for summer heat waves and potential outages. Power outages, regardless of their cause, can occur at any time. Since we cannot guarantee uninterrupted service to our customers, it is important that your emergency plan includes having sufficient standby battery power or a back-up portable unit available to power any in-home medical equipment you may have. If you have back-up power generation, we recommend you test it each month to ensure it is ready in case of a power interruption.

While rare, a rotating outage is a temporary controlled power outage typically lasting no more than one hour. Rotating outages are ordered by the California Independent System Operator (CAISO) during statewide Energy Emergency Alert Level 3 events to help ease demand and protect the integrity of the overall electric system. Your address or rotating outage group number located at the top of your bill can be used to see if you will be impacted. For more information or to check on outages in your area visit:

www.sce.com/outages

Advance Notification of a Rotating Outage

When possible, we will provide advance notice of a possible rotating outage via an automated notification using your preference for a text, email, or voice call.

Note: If you are enrolled in our Medical Baseline program, you do not need to complete this application form since you will already receive advance notification of rotating power outages that may affect you. For more information visit

www.sce.com/mbi

An electronic version of Connections is available at www.sce.com/inserts-onserts

Para más información en cómo este cambio impactará su factura, descargar esta notificación en español en el sitio Web de SCE www.sce.com/avisos

NOTICE OF APPLICATION SOUTHERN CALIFORNIA EDISON COMPANY'S REQUEST TO INCREASE ELECTRIC RATES FOR THE COST OF CAPITAL PROCEEDING APPLICATION 25-03-012

Why am I receiving this notice?

On March 20, 2025, Southern California Edison (SCE) filed its Cost of Capital application (Application 25-03-012) requesting to increase its authorized cost of capital for utility operations for 2026 with the California Public Utilities Commission (CPUC). The authorized cost of capital determines how much money SCE is allowed to collect in rates as a return on its invested capital.

SCE's proposal is summarized below:

Cost Factors	Current Cost of Capital		Cost of Capital Proposal	
	Cost	Capital Structure	Cost	Capital Structure
Long Term Debt	4.58%	43.0%	4.75%	43.0%
Preferred Equity	6.42%	5.0%	6.95%	5.0%
Common Equity	10.33%	52.0%	11.75%	52.0%

The CPUC will determine a reasonable capital structure (financial plan), the costs of long-term debt (loans and financial obligations over one year), and an appropriate rate of return on common equity (profit for SCE shareholders). If the CPUC approves SCE's requested cost of capital, SCE's authorized revenue would increase by approximately \$381.6 million or 2.2% beginning January 1, 2026. **This will impact your monthly bill.**

Why is SCE requesting this rate increase?

SCE is required to file a cost of capital application every three years unless otherwise directed by the CPUC. Cost of capital proceedings attempt to set a utility's authorized rate of return at a level that is adequate to enable the utility to attract investors to fulfill its public service obligation. SCE's requested rate of return will enable it to attract capital needed to provide safe, reliable, resilient, and ready service to its customers given that SCE faces unique and elevated risks as compared to other investment options. The adopted cost of capital will be applied to capital investments authorized in SCE's General Rate Case (GRC) application as well as other applications.

How could this affect my monthly electric rates?

If SCE's rate request is approved by the CPUC, the average non-CARE residential monthly bill using 500 kWh per month would increase by approximately \$3.59 or 2.1% per month in 2026. The average CARE residential monthly bill with the same monthly usage would increase by approximately \$2.25 or 2.1% per month in 2026.

The table below shows an estimate of proposed revenues and rate increases by customer group.

Proposed Electric Rate Increase				
Bundled Average Rates				
Customer Group	Current Rates (3/1/25) (\$/kWh)	Proposed Increase (\$/kWh)	Proposed Rates (\$/kWh)	% Increase
Residential	31.4	0.65	32.0	2.1%
Lighting - Small and Medium Power	29.1	0.57	29.7	2.0%
Large Power	19.2	0.32	19.5	1.7%
Agricultural and Pumping	23.0	0.42	23.4	1.8%
Street and Area Lighting	34.7	0.35	35.0	1.0%
Standby	16.3	0.22	16.5	1.3%
Total	27.1	0.52	27.6	1.9%
Residential Bill Impact (\$/Month)				
Description	Current (3/1/2025) (\$/Month)	Proposed Increase (\$/Month)	Proposed (\$/Month)	% Increase
Non-CARE residential bill	174.78	3.59	178.36	2.1%
CARE residential bill	109.92	2.25	112.17	2.1%

Based on estimated average annual revenue requirement increase of \$381.578 million; assumes average usage of 500 kWh per month in baseline region 9, and excludes climate dividend (i.e., GHG credits).

How does the rest of the process work?

The Application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt, modify, or deny SCE's Application. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Contact the CPUC

Parties to the proceeding may review the Application, including the Public Advocates Office. The Public Advocates Office is an independent consumer advocate within the CPUC that represents customers in order to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information about the Public Advocates Office, please call 1-415-703-1584, email PublicAdvocatesOffice@cpuc.ca.gov, or visit www.publicadvocates.cpuc.ca.gov.

Please visit apps.cpuc.ca.gov/c/A2503012 to submit a comment about this proceeding on the CPUC Docket Card. Here you can also view documents and other public comments related to this proceeding. Your participation by providing your thoughts on SCE's request can help the CPUC make an informed decision.

If you have questions about CPUC processes, you may contact the CPUC's Public Advisor's Office at:

Email: public.advisor@cpuc.ca.gov
Phone: 1-866-849-8390 (toll-free)
Mail: CPUC Public Advisor's Office
505 Van Ness Avenue
San Francisco, CA 94102

Please reference SCE 2026 Cost of Capital Application A.25-03-012 in any communications you have with the CPUC regarding this matter.

Where can I get more information?

Contact SCE

If you have any questions about SCE's request, you may contact them at:

Email: case.admin@sce.com
Phone: 1-626-302-0449
Mail: Southern California Edison Company
Attn: Case Administrator
A.25-03-012 - 2026 Cost of Capital
P.O. Box 800
Rosemead, CA 91770

A copy of the Application and any related documents may also be reviewed at www.sce.com/applications.

Para obtener información sobre como este cambio afectará su factura y/o una copia de esta notificación en español visite www.sce.com/avisos

NOTICE OF APPLICATION OF SOUTHERN CALIFORNIA EDISON COMPANY'S REQUEST TO INCREASE ELECTRIC RATES FOR THE 2024 ENERGY RESOURCE RECOVERY ACCOUNT REVIEW APPLICATION A.25-04-001

Why am I receiving this notice?

On April 1, 2025, Southern California Edison Company (SCE) filed its Energy Resource Recovery Account (ERRA) Review application (Application) with the California Public Utilities Commission (CPUC). SCE's application requests CPUC approval for an increase of \$3.992 million in SCE's revenue due to a net under-collection in six authorized SCE memorandum accounts. SCE would recover this amount in electric rates beginning in 2026 if the CPUC approves SCE's Application.

Why is SCE requesting this rate increase?

SCE is required to file this application with the CPUC on April 1 of each year. In 2024, six authorized SCE memorandum accounts had a net under-collection of funds that were necessary to provide electric service to SCE's customers. As a result, SCE requests to recover the under-collection.

How could this affect my monthly electric rates?

If SCE's rate request is approved by the CPUC, the average monthly residential bill will technically increase, but not by an appreciable amount. For example, a residential customer using 500 kilowatt-hours (kWh) per month would effectively see no change to their average monthly bill of \$174.78. This is because SCE's proposal, if approved, would only increase rates by fractions of a cent per kWh. The following table shows current rates compared to the proposed rate changes by customer type.

CUSTOMER BILL IMPACT TABLE				
Bundled Average Rates (\$/kWh)				
Customer Group	Current Rates	Proposed Change	Proposed Rates	% Change
Residential	31.4	0.00	31.4	0.0%
Lighting - Small and Medium Power	29.1	0.00	29.1	0.0%
Large Power	19.2	0.00	19.2	0.0%
Agricultural and Pumping	23.0	0.00	23.0	0.0%
Street and Area Lighting	34.7	0.00	34.7	0.0%
Standby	16.3	0.00	16.3	0.0%
Total	27.1	0.00	27.1	0.0%
Residential Bill Impact (\$/Month)				
Description	Current	Proposed Change	Proposed	% Increase
Non-CARE residential bill	\$174.78	\$0.00	\$174.78	0.0%
CARE residential bill	\$109.92	\$0.00	\$109.92	0.0%

Note: the rate impact of SCE's proposal appears as \$0.00 and 0.00% because the rate increases are too small to register on the scales presented in the table.

How does the rest of the process work?

This Application will be assigned to a CPUC Administrative Law Judge (ALJ) who will consider proposals and evidence presented during the formal hearing process. The ALJ will issue a proposed decision that may adopt SCE's Application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Contact the CPUC

Parties to the proceeding may review SCE's application, including the Public Advocates Office. The Public Advocates Office is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information about the Public Advocates Office, please call 1-415-703-1584, email PublicAdvocatesOffice@cpuc.ca.gov, or visit publicadvocates.cpuc.ca.gov.

Please visit apps.cpuc.ca.gov/c/A2504001 to submit a comment about this proceeding on the CPUC Docket Card. Here you can also view documents and other public comments related to this proceeding. Your participation by providing your thoughts on SCE's request can help the CPUC make an informed decision.

If you have questions about CPUC processes, you may contact the CPUC's Public Advisor's Office at:

Email: PublicAdvisor@cpuc.ca.gov
 Phone: 1-866-849-8390 (toll-free) or 1-415-703-2074
 Mail: CPUC Public Advisor's Office
 505 Van Ness Avenue
 San Francisco, CA 94102

Please refer to SCE's ERRA Application A.25-04-001 in any communications you have with the CPUC regarding this matter.
