- For safety reasons, if service is disconnected, please ensure any sensitive or potentially hazardous equipment is unplugged on the day of reconnection. For additional home safety tips, visit [www.sce.com/safety](http://www.sce.com/safety) or call SCE at 1-800-655-4555.

### What is a rotating outage?

Rotating outages are controlled electrical outages used to avoid widespread or uncontrolled blackouts. Your Rotating Outage Group number is located on page 1, upper left, of your SCE bill. Your rotating outage group number may change at any time. For more information, visit [www.sce.com/rotating-outage](http://www.sce.com/rotating-outage).

### What is the Power Charge Indifference Adjustment (PCIA)?

The PCIA is a charge to ensure that both SCE customers and those who have left SCE service to purchase electricity from other providers pay for the above market costs for electric generation resources that were procured by SCE on their behalf. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources.

### Disputed bills

If you believe there is an error on your bill or have a question about your service, please call Southern California Edison (SCE) customer support at 1-800-655-4555. ## Rate Identification Number - RIN

USCA-SCSC-1600-0000

In the future, you might use the Rate Identification Number (RIN) to program smart devices like smart thermostats, EV chargers, or energy management systems once the manufacturer has enabled its use. ## Things you should know

### Fixed Recovery Charge

SCE has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires. Your bill for electric service includes a Fixed Recovery Charge that has been approved by the CPUC to repay those bonds. The right to recover the Fixed Recovery Charge has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and does not belong to SCE. SCE is collecting the Fixed Recovery Charge on behalf of the Special Purpose Entity.

### Micro-business Certification

Pursuant to CPUC D.10-10-032 and D.10-11-037, customers who meet the definition of a "micro-business" as defined by California Government Code Section 14837, may be rebilled for a maximum of three months rather than three years for an undercharge resulting from a billing or meter error. To learn more and what you can do to self-certify as a "micro-business" please call 1-800-990-7788 or visit us at [sce.com](http://sce.com).

**NOTICE OF APPLICATION  
SOUTHERN CALIFORNIA EDISON COMPANY'S REQUEST TO INCREASE ELECTRIC RATES  
APPLICATION [A.24-12-010]**

**Why am I receiving this notice?**

On December 20, 2024, Southern California Edison Company (SCE) filed an application (A.24-12-010) with the California Public Utilities Commission (CPUC) requesting approval to sell SCE's Irwindale Business Center property (the Property) in Irwindale, California (the IBC Application). The IBC Application seeks approval of a revenue increase of approximately \$3.46 million, which, after taxes, will equate to a recovery of approximately \$2.49 million. While there will be a temporary increase in rates, this transaction will ultimately save SCE's customers approximately \$2.1 million per year due to decreased property-related charges and costs.

If the CPUC approves SCE's request, it will affect your rates and bill.

**Why is SCE requesting this rate increase?**

- SCE is seeking to sell the Property because SCE no longer needs the Property's office space for its operations.
- Although the sale will result in a one-time (after-tax) loss of approximately \$2.49 million and a temporary \$0.01/month raise in rates, the sale will eliminate the future property taxes and long-term operations, investment and maintenance costs for the Property. The estimated future customer savings is approximately \$2.1 million per year.

**How could this affect my monthly electric rates?**

If SCE's rate request is approved by the CPUC, the average residential monthly bill using 500 kWh per month would increase by approximately \$0.01 or less than 0.1% per month in the year following the close of the sale.
