Electronic check processing

Your check payment will be processed as a one-time Electronic Fund Transfer (EFT). With EFTs, funds may be withdrawn from your account the day we receive your payment. Your check will not be returned, but will appear on your financial statement.

Rates and applicable rules: Available at www.sce.com or upon request.

Past due bills

When is my bill past due? It is past due 20 days after the preparation date, which was 05/05/25.

- Reconnecting service that has been disconnected requires a Service Connection payment (non-residential only).
- Unable to pay: If payment arrangements were not extended to you by SCE pursuant to SCE's filed tariffs, you may contact the California Public Utilities Commission.
- For safety reasons, if service is disconnected, please ensure any sensitive or potentially hazardous equipment is unplugged on the day of reconnection. For additional home safety tips, visit www.sce.com/safety or call SCE at 1-800-655-4555.

What is the Late Payment Charge (LPC)?

0.6% will be applied to the total unpaid balance if payment is not received by the due date on this bill (except for CARE and state agency accounts).

What is a rotating outage?

Rotating outages are controlled electrical outages used to avoid widespread or uncontrolled blackouts. Your Rotating Outage Group number is located on page 1, upper left, of your SCE bill. Your rotating outage group number may change at any time. For more information, visit www.sce.com/rotating-outage.

What is the Power Charge Indifference Adjustment (PCIA)?

The PCIA is a charge to ensure that both SCE customers and those who have left SCE service to purchase electricity from other providers pay for the above market costs for electric generation resources that were procured by SCE on their behalf. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources.

Disputed bills

If you believe there is an error on your bill or have a question about your service, please call Southern California Edison (SCE) customer support at 1-800-655-4555. If you are not satisfied with SCE's response, submit a complaint to the California Public Utilities Commission (CPUC) at www.cpuc.ca.gov/complaints/. The CPUC's Consumer Affairs Branch (CAB) handles billing and service complaints and can be reached by:

Telephone 1-800-649-7570 (8:30 AM - 4:30 PM, Monday - Friday)

Mail CPUC, Consumer Affairs Branch, 505 Van Ness Ave., Room 2003, San Francisco, CA 94102

If you have limitations hearing or speaking, contact the California Relay Service, which is for those needing assistance relaying telephone conversations. Dial 711 or one of the numbers below to be routed to a California Relay Service provider in your preferred mode of communication.

Type of Call	English	Spanish

Speech-to-Speech Relay	1-800-854-7784	1-800-854-7784

To avoid having service turned off while waiting for the outcome of a complaint to the CPUC regarding the accuracy of your bill, contact CAB for assistance. If your case meets the eligibility criteria, CAB will instruct you on how to mail a check or money order to be impounded pending resolution of your case. You must continue to pay your current charges while your complaint is reviewed to keep your service turned on.

Definitions

- Baseline Credit: The baseline credit provides reduced electricity rates on electricity used up to the baseline allocation for the region that you live in.
- CA Climate Credit: Credit from state effort to fight climate change. Applied monthly to eligible businesses and semi-annually to residents.
- Wildfire Fund Charge: Supports the California Wildfire Fund which covers costs associated with catastrophic wildfires, including payment of bonds issued by the California Department of Water Resources (DWR)
- Public Purpose Programs Charge: Funds state-mandated programs for low income discounts, energy efficiency, renewable energy and R&D.
- SCE Generation: For recovering energy procurement and generation costs for that portion of your energy provided by SCE.

Things you should know

Fixed Recovery Charge

SCE has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires. Your bill for electric service includes a Fixed Recovery Charge that has been approved by the CPUC to repay those bonds. The right to recover the Fixed Recovery Charge has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and does not belong to SCE. SCE is collecting the Fixed Recovery Charge on behalf of the Special Purpose Entity.

Micro-business Certification

Pursuant to CPUC D.10-10-032 and D.10-11-037, customers who meet the definition of a "micro-business" as defined by California Government Code Section 14837, may be rebilled for a maximum of three months rather than three years for an undercharge resulting from a billing or meter error. To learn more and what you can do to self-certify as a "micro-business" please call 1-800-990-7788 or visit us at sce.com.

**NOTICE OF APPLICATION
SOUTHERN CALIFORNIA EDISON COMPANY'S REQUEST TO INCREASE ELECTRIC RATES
FOR THE COST OF CAPITAL PROCEEDING
APPLICATION 25-03-012**

Why am I receiving this notice?

On March 20, 2025, Southern California Edison (SCE) filed its Cost of Capital application (Application 25-03-012) requesting to increase its authorized cost of capital for utility operations for 2026 with the California Public Utilities Commission (CPUC). The authorized cost of capital determines how much money SCE is allowed to collect in rates as a return on its invested capital.

SCE's proposal is summarized below:

Cost Factors	Current Cost of Capital		Cost of Capital Proposal	
	Cost	Capital Structure	Cost	Capital Structure
Long Term Debt	4.58%	43.0%	4.75%	43.0%
Preferred Equity	6.42%	5.0%	6.95%	5.0%
Common Equity	10.33%	52.0%	11.75%	52.0%

The CPUC will determine a reasonable capital structure (financial plan), the costs of long-term debt (loans and financial obligations over one year), and an appropriate rate of return on common equity (profit for SCE shareholders). If the CPUC approves SCE's requested cost of capital, SCE's authorized revenue would increase by approximately \$381.6 million or 2.2% beginning January 1, 2026. This will impact your monthly bill.

Why is SCE requesting this rate increase?

SCE is required to file a cost of capital application every three years unless otherwise directed by the CPUC. Cost of capital proceedings attempt to set a utility's authorized rate of return at a level that is adequate to enable the utility to attract investors to fulfill its public service obligation. SCE's requested rate of return will enable it to attract capital needed to provide safe, reliable, resilient, and ready service to its customers given that SCE faces unique and elevated risks as compared to other investment options. The adopted cost of capital will be applied to capital investments authorized in SCE's General Rate Case (GRC) application as well as other applications.

How could this affect my monthly electric rates?

If SCE's rate request is approved by the CPUC, the average non-CARE residential monthly bill using 500 kWh per month would increase by approximately \$3.59 or 2.1% per month in 2026. The average CARE residential monthly bill with the same monthly usage would increase by approximately \$2.25 or 2.1% per month in 2026.

The table below shows an estimate of proposed revenues and rate increases by customer group.

Proposed Electric Rate Increase

Bundled Average Rates				
Customer Group	Current Rates (3/1/25) (\$/kWh)	Proposed Increase (\$/kWh)	Proposed Rates (\$/kWh)	% Increase
Residential	31.4	0.65	32.0	2.1%
Lighting - Small and Medium Power	29.1	0.57	29.7	2.0%
Large Power	19.2	0.32	19.5	1.7%
Agricultural and Pumping	23.0	0.42	23.4	1.8%
Street and Area Lighting	34.7	0.35	35.0	1.0%
Standby	16.3	0.22	16.5	1.3%
Total	27.1	0.52	27.6	1.9%
Residential Bill Impact (\$/Month)				
Description	Current (3/1/2025) (\$/Month)	Proposed Increase (\$/Month)	Proposed (\$/Month)	% Increase
Non-CARE residential bill	174.78	3.59	178.36	2.1%
CARE residential bill	109.92	2.25	112.17	2.1%

Based on estimated average annual revenue requirement increase of \$381.578 million; assumes average usage of 500 kWh per month in baseline region 9, and excludes climate dividend (i.e., GHG credits).

How does the rest of the process work?

The Application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt, modify, or deny SCE's Application. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

**NOTICE OF APPLICATION OF SOUTHERN CALIFORNIA EDISON COMPANY'S REQUEST TO
INCREASE ELECTRIC RATES FOR THE 2024 ENERGY RESOURCE RECOVERY ACCOUNT REVIEW
APPLICATION A.25-04-001**

Why am I receiving this notice?

On April 1, 2025, Southern California Edison Company (SCE) filed its Energy Resource Recovery Account (ERRA) Review application (Application) with the California Public Utilities Commission (CPUC). SCE's application requests CPUC approval for an increase of \$3.992 million in SCE's revenue due to a net under-collection in six authorized SCE memorandum accounts. SCE would recover this amount in electric rates beginning in 2026 if the CPUC approves SCE's Application.

Why is SCE requesting this rate increase?

SCE is required to file this application with the CPUC on April 1 of each year. In 2024, six authorized SCE memorandum accounts had a net under-collection of funds that were necessary to provide electric service to SCE's customers. As a result, SCE requests to recover the under-collection.

How could this affect my monthly electric rates?

If SCE's rate request is approved by the CPUC, the average monthly residential bill will technically increase, but not by an appreciable amount. For example, a residential customer using 500 kilowatt-hours (kWh) per month would effectively see no change to their average monthly bill of \$174.78. This is because SCE's proposal, if approved, would only increase rates by fractions of a cent per kWh. The following table shows current rates compared to the proposed rate changes by customer type.

CUSTOMER BILL IMPACT TABLE

Bundled Average Rates ($\text{¢}/\text{kWh}$)				
Customer Group	Current Rates	Proposed Change	Propose Rates	% Change
Residential	31.4	0.00	31.4	0.0%
Lighting - Small and Medium Power	29.1	0.00	29.1	0.0%
Large Power	19.2	0.00	19.2	0.0%
Agricultural and Pumping	23.0	0.00	23.0	0.0%
Street and Area Lighting	34.7	0.00	34.7	0.0%
Standby	16.3	0.00	16.3	0.0%
Total	27.1	0.00	27.1	0.0%
Residential Bill Impact (\$/Month)				
Description	Current	Proposed Change	Proposed	% Increase
Non-CARE residential bill	\$174.78	\$0.00	\$174.78	0.0%
CARE residential bill	\$109.92	\$0.00	\$109.92	0.0%

Note: the rate impact of SCE's proposal appears as \$0.00 and 0.00% because the rate increases are too small to register on the scales presented in the table.

How does the rest of the process work?

This Application will be assigned to a CPUC Administrative Law Judge (ALJ) who will consider proposals and evidence presented during the formal hearing process. The ALJ will issue a proposed decision that may adopt SCE's Application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.
